

KARBONIUS

G8X ENGINE COVER

| G8X ENGINE COVER |

The Karbonius Engine Cover for BMW G8X, manufactured from prepreg carbon fiber, has been designed for vehicles equipped with the S58 engine. It directly replaces the factory engine cover, providing a more sporty, exclusive, and performance-oriented appearance while maintaining OEM-like fitment. Its high-quality carbon fiber construction enhances the engine bay with a premium motorsport-inspired finish.

Benefits

Enhances the engine bay aesthetics with a more sporty and premium appearance.

Provides an exclusive Motorsport-inspired look.

Lightweight construction with excellent resistance to the high temperatures found in the engine compartment.

Simple installation through direct replacement of the original cover.

Compatible with the original M emblem to maintain a factory-style appearance.

| G8X ENGINE COVER |
